

Multispecialty Laser and Aesthetics Program

Where science meets aesthetics

We look forward to meeting your laser and aesthetics needs. What we offer:

Laser services:

Vascular (blood vessel) related treatment for diagnoses of:

- Cherry angiomas (red spots)
- Purpura (red/purple discoloration)
- Rosacea (red face)
- Erythema (redness)
- Dilated blood vessels (face or body)
- Poikiloderma of Civatte (red neck)
- Capillary vascular malformations (port-wine stain, salmon patch)
- Infantile hemangiomas

Scars:

- Acne scars
- Traumatic scars
- Post-surgical scars
- Burn scars

Photorejuvenation:

- Hyperpigmentation, lentiginos (dark spots), dyspigmentation
- Rhytides/wrinkles (full face, perioral/around the mouth, periocular/around the eyes, neck, chest)
- Rejuvenation (reveals younger, smoother skin)

Other laser treatments include:

- Tattoo removal
- Benign lesion removal (seborrheic keratoses, sebaceous hyperplasia/dilated oil glands, etc.)
- Rhinophyma (enlarged nose from rosacea)
- Coming Soon - Laser Hair Removal

We also offer services for:

- Neuromodulators (Botox® and Dysport®)
- Filler injection (Full list available on request)
- Injectable Sclerotherapy for spider veins of the legs
